

Antengene to Attend 2025 J.P. Morgan Global Healthcare Shanghai Conference

Shanghai and Hong Kong, PRC, October 15, 2025 — Antengene Corporation Limited (**"Antengene"** , SEHK: 6996.HK), a leading innovative, commercial-stage global biotech company dedicated to discovering, developing and commercialising first-in-class and/or best-in-class medicines for autoimmune disease, solid tumors and hematological malignancies indications, today announced that it will attend the **2025 J.P. Morgan Global Healthcare Shanghai Conference, taking place on October 16th to 17th at the J.P. Morgan Shanghai Tower Office.**

Antengene's management team will be available for one-on-one meetings with investors during the conference. Those interested are welcome to contact J.P. Morgan or IR team to register.

Antengene is honored to be invited by J.P. Morgan to attend the conference and looks forward to engaging in insightful discussions and exploring new partnerships across the healthcare sector to accelerate innovation and industry growth.

About Antengene

Antengene Corporation Limited (**"Antengene"** , SEHK: 6996.HK) is a global, R&D-driven, commercial-stage biotech company focused on developing first-in-class/best-in-class therapeutics for diseases with significant unmet medical needs. Its pipeline spans from preclinical to commercial stages and includes several in-house discovered programs, including ATG-022 (CLDN18.2 ADC), ATG-037 (oral CD73 inhibitor), ATG-101 (PD-L1 × 4-1BB bispecific antibody),

ATG-031 (CD24-targeting macrophage activator), and ATG-042 (oral PRMT5-MTA inhibitor).

Antengene has also developed AnTenGager™, a proprietary T cell engager 2.0 platform featuring “2+1” bivalent binding for low-expressing targets, steric hindrance masking, and proprietary CD3 sequences with fast on/off kinetics to minimize cytokine release syndrome (CRS) and enhance efficacy. These characteristics support the platform’s broad applicability across autoimmune disease, solid tumors and hematological malignancies indications.

To date, Antengene has obtained 31 investigational new drug (IND) approvals in the U.S. and Asia, and submitted new drug applications (NDAs) in 11 Asia Pacific markets. Its lead commercial asset, XPOVIO® (selinexor), is approved in Mainland of China, Taiwan China, Hong Kong China, Macau China, South Korea, Singapore, Malaysia, Thailand, Indonesia and Australia, and has been included in the national insurance schemes in five of these markets (Mainland of China, Taiwan China, Australia, South Korea and Singapore).
